Dear Dr Alfonso,

Miss Freud has instructed me to thank you very much for your letter and for sending her your book, published in Italian.

She was very interested in your taking Freud's mother as his subject, noting that this is the first time this subject has been chosen.

Miss Freud says to tell you that the reason for not writing herself is that she has been quite ill, and that her hands are still very shaky, but that she is sending you her best regards.

Yours sincerely,

A.F.
